Profile Summary

Experienced **SharePoint Developer** with **4+ years** in designing and implementing enterprise-level solutions. Proficient in **Power Platform, SharePoint Online, SPFx (React), and workflow automation** to develop scalable and efficient applications.

- Skilled in **Power Apps, Power Automate, and SharePoint development** to optimize business processes.

- Proficient in REST API integration, JavaScript & TypeScript, ensuring efficient and seamless data management.

- Adept at working in **Agile environments**, collaborating with cross-functional teams, and delivering high-quality solutions.

Committed to leveraging technology to improve productivity and streamline workflows.

Skills

Technical Skills:

- **Power Platform:** Power Apps, Power Automate

- **SharePoint Development:** SPFx, SharePoint Online

- **Programming Languages:** JavaScript, TypeScript, Python

- **Database Management:** SQL, SharePoint

- **Web Technologies:** React, HTML, CSS

- **Version Control:** Git

Soft Skills:

- Team Collaboration | Time Management | Problem-Solving | Communication

---

Certifications

- **PL-900:** Power Platform Fundamentals

- **PL-100:** Power Apps Developer Associate

- **AZ-900:** Azure Fundamentals

Work Experience

Associate | Cognizant Technology Solutions | Hyderabad, India | 02/2021 - Present

- Designed and developed **business applications using PowerApps** and automated workflows with **Power Automate**.

- Created and deployed **custom SharePoint web parts** using **SPFx, React, and TypeScript for PCF**.

- Automated business processes, reducing manual effort.

- Integrated Power Platform solutions with **REST APIs** to enable seamless data connectivity.

- Led **data migration projects** from legacy systems to **SharePoint Online**.

- Participated in **Agile sprint planning, client meetings, and solution architecture discussions**.

Key Projects

Power Apps Governance Suite *(IT Governance)*

- Implemented **CoE Toolkit** to enhance Power Platform security and compliance.

- Developed **custom PowerApps & Power Automate workflows** for process optimization.

Unified Application Portal *(Enterprise IT)*

- Built a **SharePoint portal** using **SPFx (fluent UI) & React** for seamless app access.

- Integrated **SSO and role-based access control** for secure navigation.

Risk Register Power App *(Healthcare - Johnson & Johnson)*

- Developed a **risk management system** using **Power Apps & Power Automate**.

- Automated approval workflows and utilized **Microsoft Dataverse** for secure data storage.

Medical Escalation Calendar *(Healthcare)*

- Created a **centralized SharePoint-based calendar** for medical teams.

- Automated email notifications via **Power Automate**, improving response efficiency.

Regeneron Smartsheet Migration *(Pharmaceuticals)*

- Migrated **Smartsheet data to SharePoint Online**, enhancing reporting and workflows.

- Developed **Power BI dashboards** and automated workflows with **Power Automate**.

Education

- **B.E. Computer Science & Engineering | Raghu Engineering College | 2020 | CGPA: 7.51**
